

## SRM-S

The SRM (Swappable radio module) radios are a US government standard for defense robotics. With The SRM radios you have more than 25 different radio configurations available which all fit the same interface. The SRM radios offer a high level of flexibility, since you are not locked to one system, but can swap radios as you like. With the SRM-S radios you get a radio that uses under 15 watts of power.

The SRM-S fits Microhard, Doodle labs, SDR-RTL, and Trellisware\*.

Ask our sales representative if you would like to integrate another type of radio

## Mechanical

Mechanical Features	Environmental rating: IP65
	SRM-S-DL
	MIL-810 STD
	Size: from 2.64 x 3.19 x 0.87 inches / 67 x 81 x 22 mm (W x H x D)
	Weight: from 0.26 lbs / 120 g

## Radio

Radio	Microhard
	Doodle labs
	SDR-RTL
	Trellisware

## Human Interfaces

Interfaces	Up to 2 x TNC connectors
	1 x SRM
	1 x SD-card slot

## Power supply requirements

Power	Voltage range: 5.5 - 20 DC [V]
	Current: Maximum 3 [A]
	Watt: Maximum 15 [W]
